WITH
25 DAYS
OF GIVING

Project Linus
Providing Security Through Blankets

Purpose:

Help children in hardship or need by providing them with the loving comfort of a warm personal blanket.

How you can help:

Make blankets to donate (2 yards long) during a company meeting or at home.

Jeanna will supply the material for company meeting.

Project Linus

My kiddos love blankets and I also love to snuggle under a blanket and read to them during our quality time together. This is why I chose to support Project Linus.

Project Linus is about helping children who are going through a life changing experience. They make and distribute blankets to children in hospitals, homeless shelters, rehabilitation centers, behavior centers, child advocacy groups, funeral homes and other children who needs comfort. They have delivered over 7,800 blankets nationwide since 1995.
